

March 24, 2011

On March 23, 2011, the EPA was provided a tour of Trenches 31 and 34 by the LLBG/CWC/IDF Project Manager. During the tour of the trenches, EPA requested the construction dates and waste placement dates for each trench. The following is the requested information:

Trench 31

- Start of construction was started on Sept 7, 1993
- End of Construction was October 7, 1994
- First waste placed in storage in the trench on June 17, 2003
- First waste disposed on May 24, 2005

Trench 34

- Start of construction was started on June 6, 1994
- End of Construction was November 3, 1994
- First waste placed in storage in the trench on April 1, 1997
- First waste disposed on September 15, 1999
